## HANDMADE CERAMIC PLATES & CANDLE HOLDER

# B.F.A.

**KONKYLIE - A taste of eternal summer.**
A collection of handmade ceramic plates and a candle holder designed by Benedetto Fasciana.

The wavy contours of seashells reverberate through the ages as symbols of peace and heavenly beauty. Mirroring the movement and glimmer of the sea, their evocative forms are often found adorning Mediterranean tables.

Displaying textured concentric sequences, the Konkylie design blends the natural geometry of seashells with the fluidity of water to create a collection that speaks to our origins.

The palette reflects the hues of eternal summer, with shiny crystalline turquoise, cobalt blue, honey and teal colourways. The handmade Konkylie plates come in 16, 22 and 28 cm, complemented by an atmospheric 12x15 cm candle holder.

*Due to the handcrafted nature of this product, small variations in colour, size and shape may occur. Not suitable for use in -microwave ovens.*

**Benedetto Fasciana**
Architect, lives and works in Milan.
He is passionate about botany and Mediterranean culture and studied ceramics in Sicily.
